Sherman High School

—
We're all a part of it;
Making new friends
And learning to get
along with everyone;
Doing the things that
make us happy
And learning to accept
and do some of the
things that don't.

Being educated, at
 times thinking we
 learn
 nothing, And at times,
 learning more than
 we thought we would
 ever know.
 Our school is a part of
 our life
 We love it;
 We hate it;
 We enjoy it;
 We despise it;

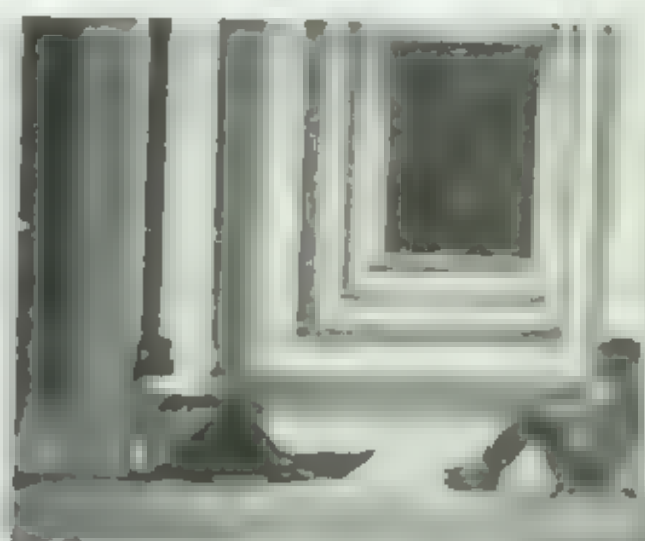

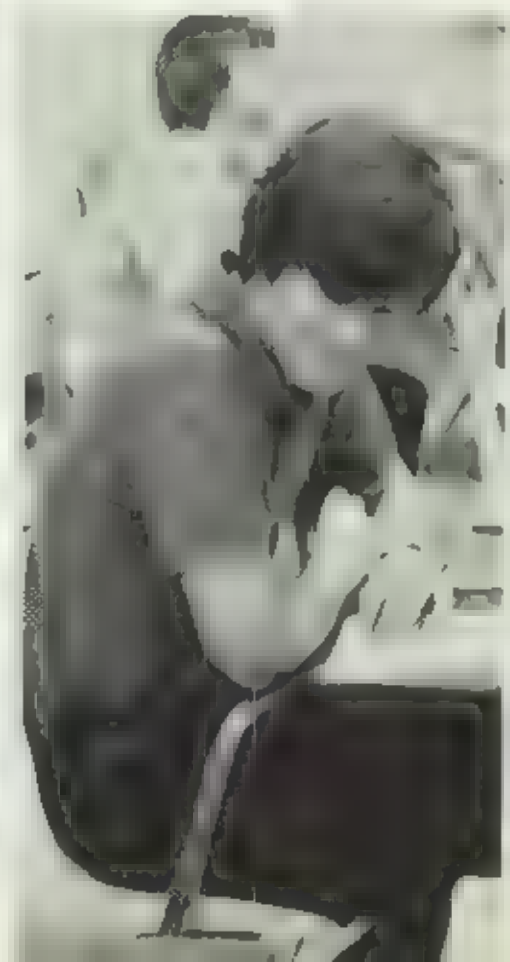

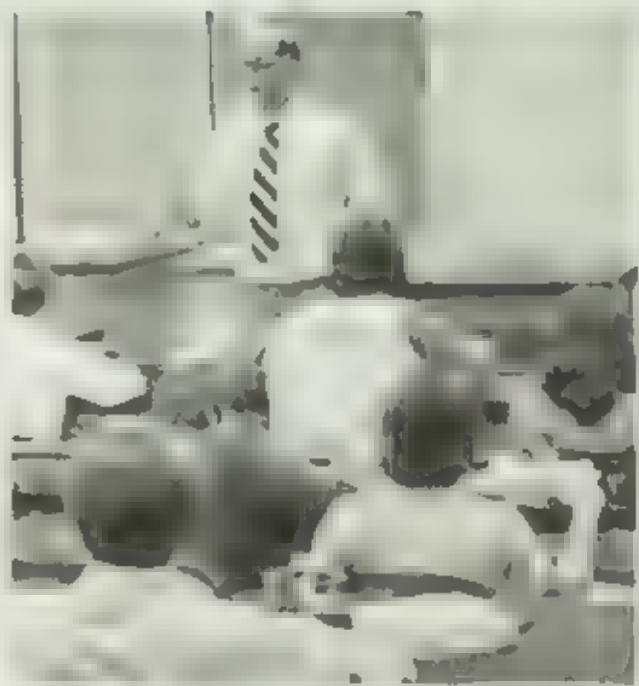

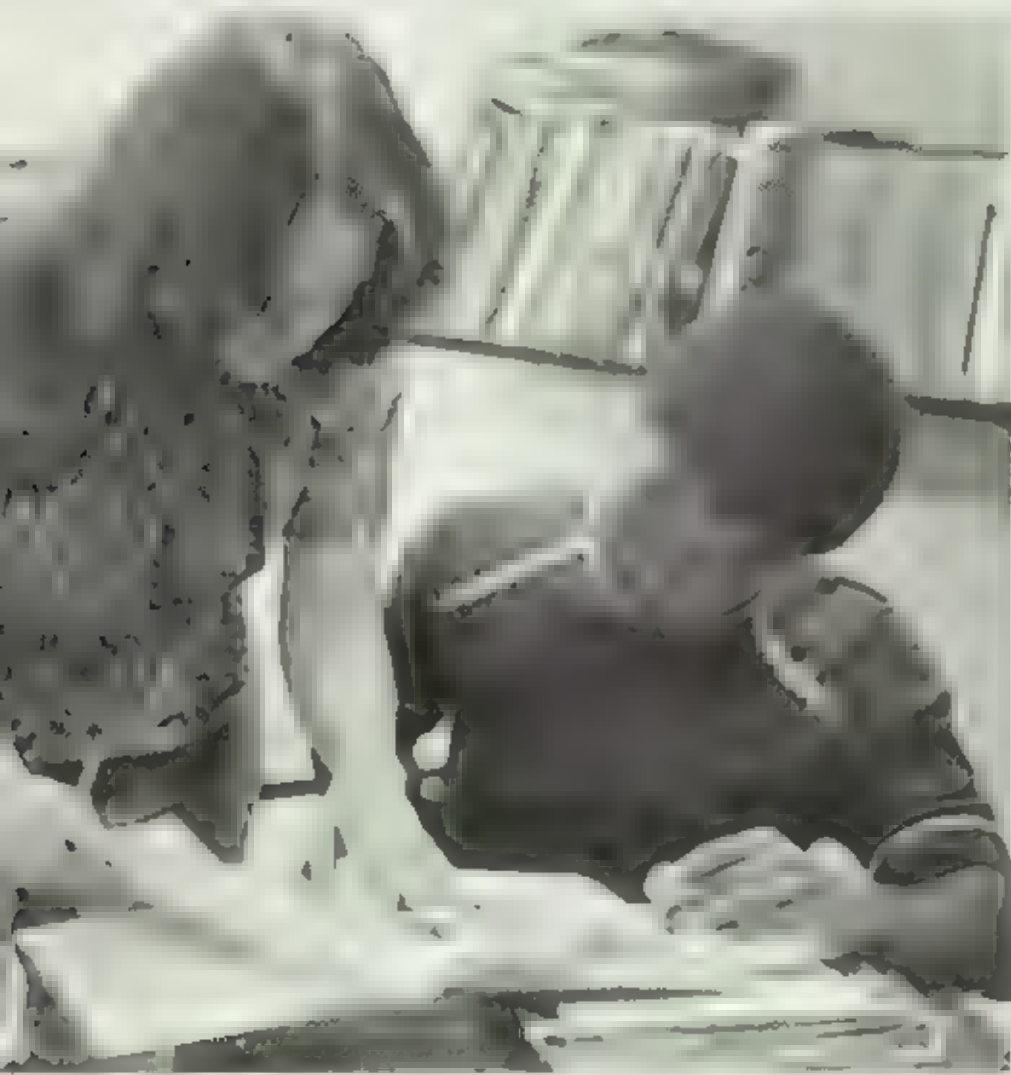

But no matter how we feel
It's four special years of
our lives.
We learn many things here
And after we leave
We'll realize how important
it was;
And all the good times it
contributed to our lives.

Sherman High School —
It's a part of all of us!

Back to Basics Plus

. . .

Drilling verbs, nouns, commas, adjectives, prepositions, spelling, punctuation and literature into the minds of students was the Sherman High School English Department's goal this year.

Aside from the traditional English I, II, III, IV, and Advanced Placement, a college English course was offered on the Sherman High School campus for the first time.

College English was designed to function as a college class. Students attended classes three days a week for two semesters, one for literature and one for grammar and composition. The course not only helped prepare students for the college curriculum but it gave them the opportunity to receive college credits.

Senior **Karen Hendricks** finds college English worthwhile because "I'm beginning to comprehend what a college classroom is like and what to expect when I go to college." Sophomore **Nancy Nicholson** "enjoys English this year because of the novels we are reading, and grammar is a little easier this year." Senior **Mark Helms** has learned "how to read poetry and how to enjoy Beowulf stories."

Cultural Studies Provide Understanding

Reasons varying from college entrance requirements to "just for the fun of it" gave students the incentive to participate in the foreign language program. The foreign languages at Sherman High School include French, Latin, and Spanish.

Each first year language class stressed basic reading and writing skills as well as oral skills in listening and conversation.

The second level of each language course centered on the reading and writing skills and impressed upon each student the importance of culture in that language.

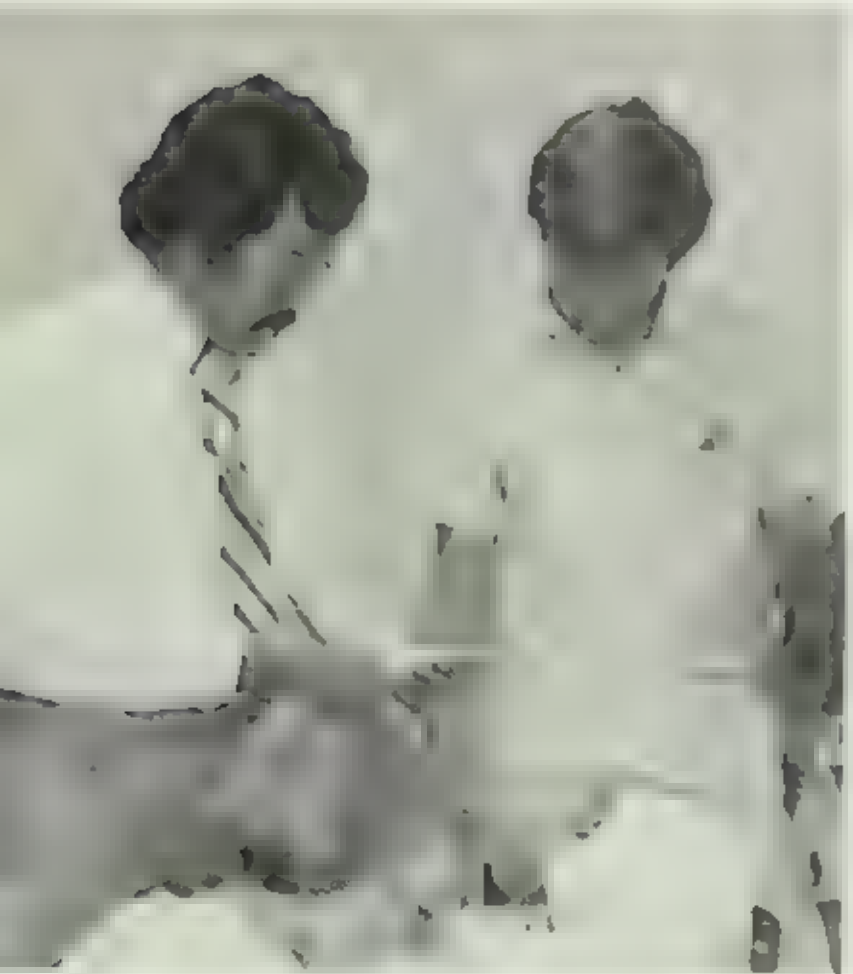

The different language departments spent many hours in various activities. Students visited museums and attended a foreign language party.

Junior, **Les Mitchell**, took French to gain "knowledge of foreign language;" also Les finds his class to be "fun and entertaining."

Scotty Wright, sophomore, took Spanish for "college requirements."

"To become more acquainted with different customs" was junior **Karl Haller's** reason for taking a foreign language.

Farrel Engler, junior, feels that "Latin will greatly help me in my archeology career."

1. Darrell Smith, Karen Hendrick, David Reynolds takes a break from Latin to enjoy a game of chess. 2. Jay Northcut listens while Mr. Mike Perez explains his homework. 3. Gweneen Scruggs, Cathy Roach, Mary Daniels, Jackie Morgan complete a French assignment. 4. Cecil Slaughter, Jesse Latham, Bobbie Johnson, Steve Thompson, Dan Jones, Clif Carnley listen to Mr. Mike Perez's lecture.

Students Gain First Hand Experience

"I think Journalism I is fun. It's a good experience if you like working with people," stated Sherman High School sophomore **Susan Scoggins**.

The world of mass media is one that is constantly growing and creating new job opportunities as it expands. Students interested in occupations relating to newspapers, magazines, radio, and television were given first hand experience by participating in the Journalism I class which was structured to resemble a daily newspaper office.

The class was designed to teach students the basic principles of how newspapers, radio and television programs were assembled. Students were also given instructions on how to write effective articles and the responsibility of publishing the monthly **Hi Talk**.

Actually seeing their own copy and layout designs in print gave students incentive to try harder in obtaining quality work. "Seeing yourself in print is the fun side of journalism" stated "**Mrs. Paula Morgan**, Journalism Instructor. Given the choice of taking the class over, sophomore **Teresa Beard** commented "I believe I would do it again because it gives you the opportunity to meet other people and it's a challenge."

1. Susan Roman types news copy for the **Hi Talk**. 2. Darla Hames, Shelly Kirby, Lori Burchfield, and Teresa Beard work on **Hi Talk** stories. 3. Publications Offer Hardwork; Personal Satisfaction

"Being on staff may be a lot of fun, hard work and personal satisfaction, but I know we all spend a great deal of time at the "Community Brick Wall" stated junior **John Hill** when asked about the work of Publications staff

Working with a self supporting budget of approximately \$24,500, the Publications staff busied itself with selling 1,650 books and 60 pages of ads to pay for the 1979 Athenian

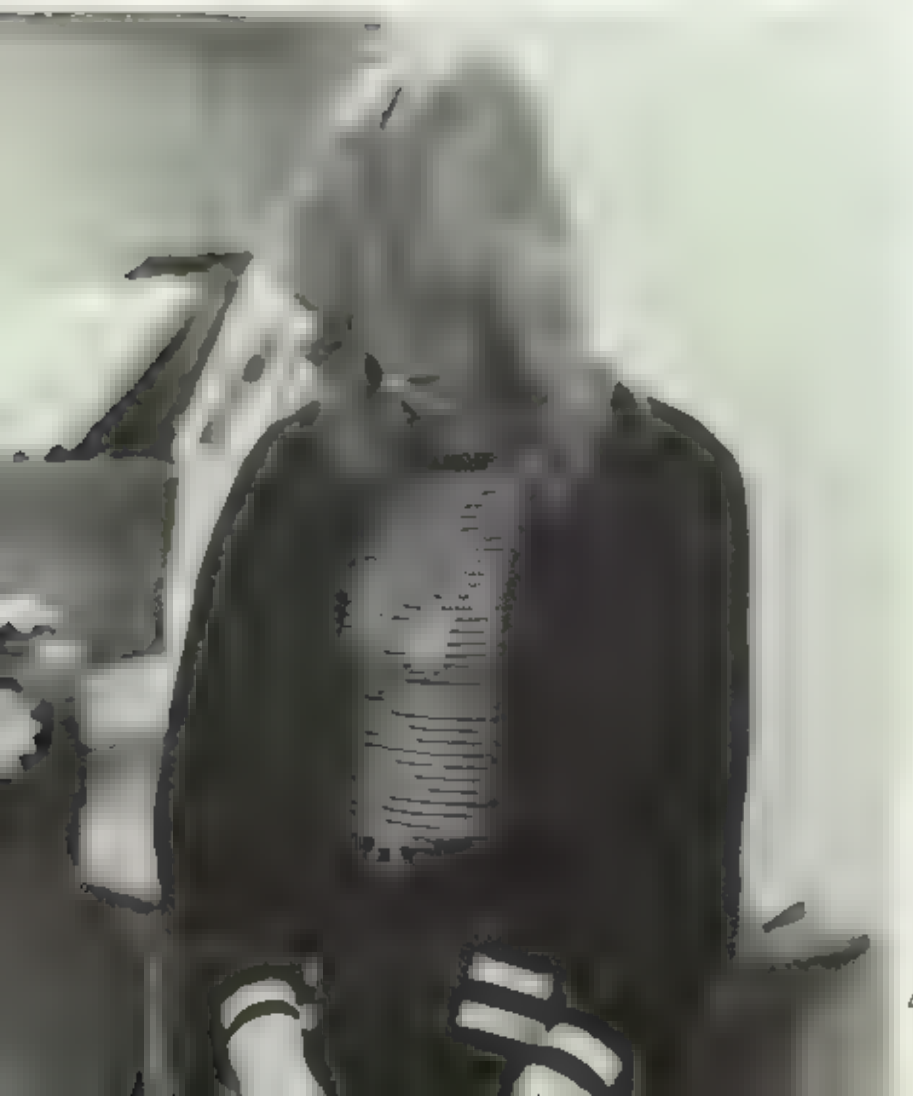

Seeming to be at a monumentous project staffers sweated over deadlines, ad sells, mail outs, identified pictures, carried cameras as if they were appendages, turned rooms upside down looking for lost copy, banged their heads against the "Community Brick Wall" and found themselves taking up room and board in A133

Publications Undergo Changes

Trying to establish a reputation in their own right, (We will be out on time this year and the Athenian will be different) the Athenian staff tempted to utilize all open space on pages. More pictures, more community coverage, more creative design and more copy was added giving each aspect of campus life equal representation. Numerous hours beyond the normal school day were spent to assure meeting all deadlines.

Due to the seriousness of the Athenians, many responsibilities that includes completing sections, good attitudes, working together, and giving up many nights and weekends were expected from staff members.

Perhaps **Judy Adair**, senior editor-in-chief, best summed up the feelings of all staff members, "I don't know why I took Journalism II, besides being time consuming, discouraging and hardwork, it's a pain. I don't think people realize how much work goes into the publishing of a yearbook. But seeing the pages you designed and the stories you wrote, published in a book that people will always cherish makes the whole thing rewarding."

Department Adds College Course

"I have learned about this fantastic land of opportunity," commented junior, **Mark Rexrode** about American History.

The Social Studies Department provided a variety of courses this year: American Government, World Geography, World History, American History, Psychology, Sociology, European and Asian Studies, Latin American Studies, African Studies and Negro American Studies.

The Social Studies Department also offered a freshman college history course. To enroll in this course you have to be a senior and in the top of your class.

Senior, **Lisa Wortham** took college history because, "I get college credit, and by taking it now I won't have to take it next year."

Psychology classes help to prepare students for the upcoming social problems by studying human behavior, social development, and learning processes.

Drivers Ed, P.E. Break Monotony

Climbing telephone poles, running stop signs, going the wrong way on a one way street, crumpled fenders, scratched doors and peeling paint reveal the inexperience of Sherman High School Driver Education students. The majority of sophomores, a few juniors and even a few seniors joined to tolerate a quarter of of simulator practice, bloody movies, and lengthy lectures to gain the all important white slip before age 16.

On the spot training and going out on the open road help to make many of the impatient hopefuls safe and responsible drivers. Most students enrolled in Drivers Ed., in order to obtain their drivers' license; however, many still wanted to become safe drivers as sophomore **Becky Waller** commented, "By enrolling in Drivers Ed. I was able to get my license and also learned the importance of safe driving techniques."

Physical Education classes ranging from gymnastics to physical fitness provided Sherman High School students with a daily break from the monotony of academic courses

According to **Kim Wiley**, sophomore, "P.E. gives you the opportunity to release your frustrations and show off your athletic abilities. I like the class when we play volleyball, but I don't like dressing out and going outside."

Most of the physical education courses teach only the fundamentals of the sport and students build their games around these basics.

1. Mark Dismuke and John Pennington learn how to be a safe, good driver from Mr. Jack Kruse 2. P E students run their mile in preparation for their Physical Fitness test. 3. Senior Ronald Jackson takes a breather before beginning his laps around the track 4. P E work outs are a must before playing volleyball

Science Labs Provide Challenge

Dissecting earthworms, frogs, cats, classifying plants and animals, plotting graphs, making paper airplanes for contest, and completing endless scores of lab experiments provided a challenge for highly motivated, as well as the uninterested science student.

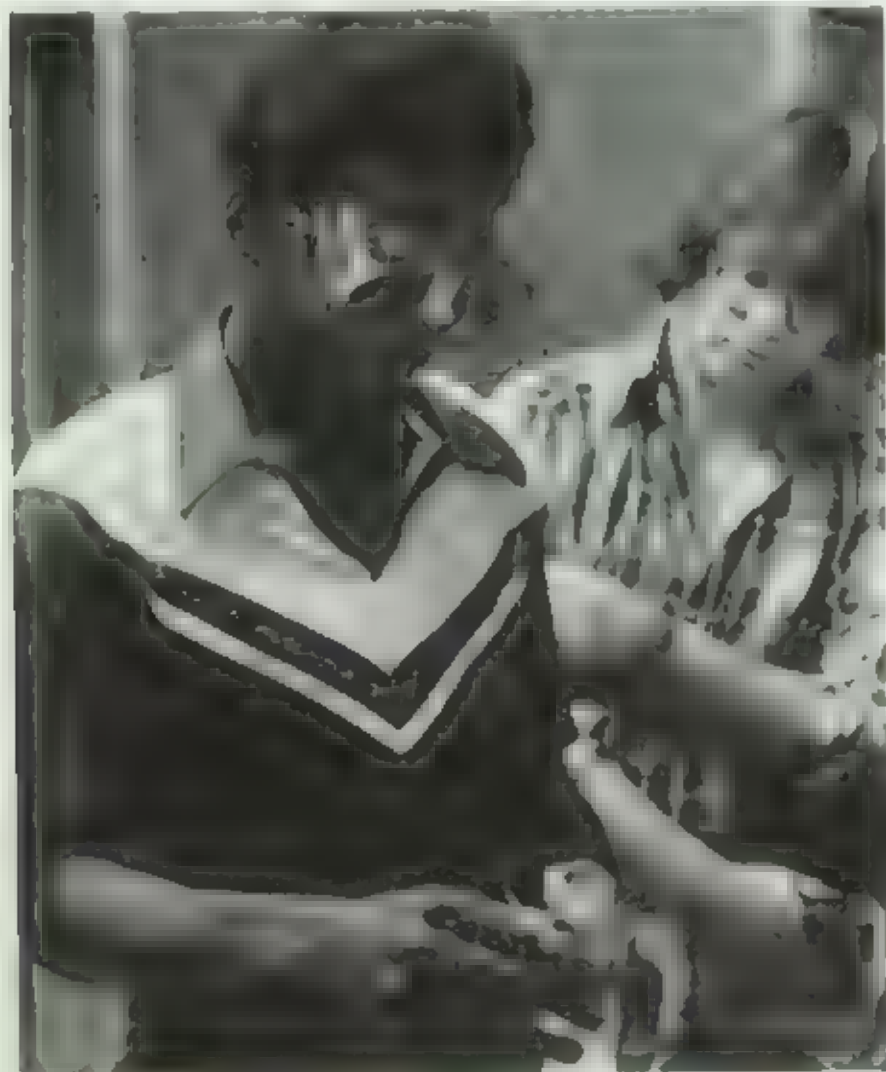

Finding students concerned with their environment, the science department at Sherman High School expanded their program through lab assignments, thus making learning by doing easier to understand.

Biology, the wondrous world of nature and most abstract of the sciences, gave students the opportunity to learn how important genetics, bacteria, and other one-celled organisms are to every animal, plant, and man on earth. Junior, **Cary McDougal** described Biology II as, "Biology is pretty hard but its O.K. We take a lot of notes. I took the class because I want to be a doctor."

Velocity, motion, electricity, and laws which govern the material world are studied in detail in Physics.

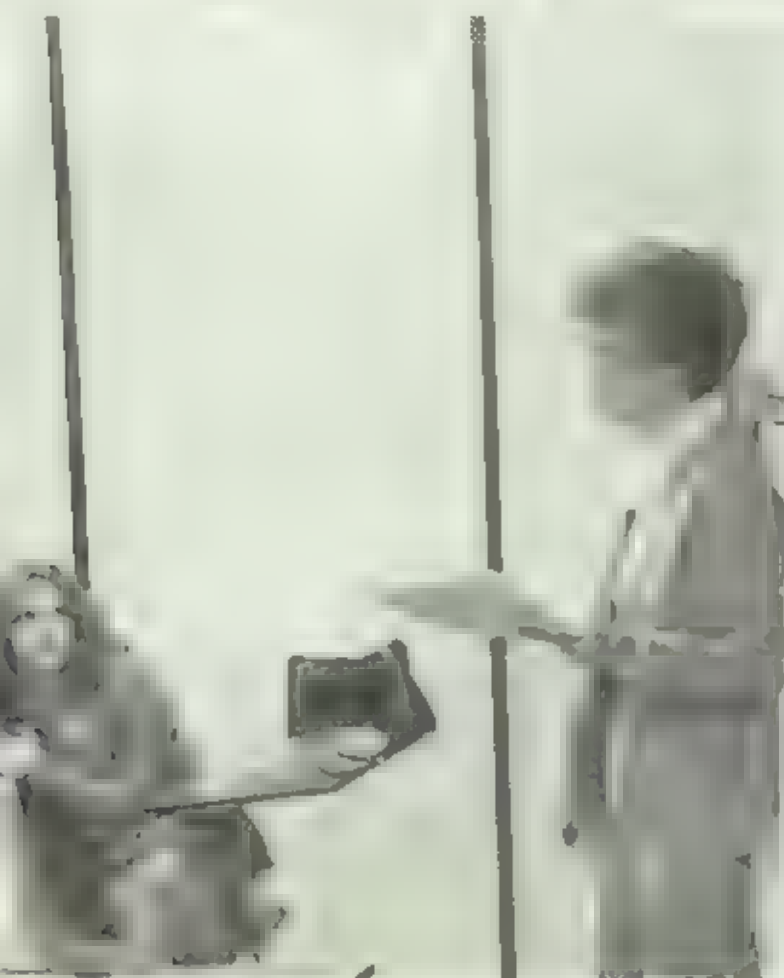

Conducting numerous lab experiments, students find a special fascination for Chemistry as they study the fundamental elements of every worldly element. Concerning Chemistry class, **Kris Taylor**, sophomore, commented, "I felt I needed Chemistry for college. To be a veterinarian I need a great deal of work, but I enjoy labs and its neat when I finally understand something."

Physical Science is a general study of all the sciences. The class covers subjects used in everyday life such as sound, heat, and electricity.

1. Mr. Steve Rodgers lectures to class while in Lab. 2. Donna Harvey and Sandy Strass work on Lab from Mrs. Phyllis Young's Physical Science class. 3. Sara Burchfield and David Buck listen and take notes on class lecture from Coach Gerald Jack. 4. Dewayne McKinney from Mrs. Phyllis Young's Physical Science class works on generating Carbon Dioxide.

Home Economics Revolves Around Family, Society

1

Recognizing the importance of a family centered society, the homemaking classes of Sherman High School revolved around family life, child development, consumer education, home management, foods and nutrition, and clothing and textiles.

While most laboratory classes chose to use eggs in recipes, members of Home and Family Living classes use them to stimulate parental responsibilities. Students found themselves having to feed, diaper, and to hire "egg sitters" when leaving them alone.

In Home and Family Living students learned about themselves and their roles as family members.

Realizing that today's young people are marrying later, the homemaking classes are also teaching single survival. This acquaints students with knowledge and skills needed to survive on their own.

Realizing the importance of cooking and experiencing the rising prices of clothes, freshman **Donna Gaddis** enrolled in Home Ec. because "I enjoy cooking and can become a better cook and have a chance to try different recipes."

1. Madelain Bryant and Kim Clayton listens while Mrs. Kay Viegaver gives lecture on child development. 2. Art I and II students covered the principals of drawing and painting with the use of pencil, water color, chalk and tempra paint. Art III and IV students go into further depth with advanced work, and they have an opportunity to pursue special areas of interest

Business Geared Towards Practical Applications

Typewriters roared and business machines hummed as future business men and women obtained successful learning and working experiences in the Business Department of Sherman High School.

No longer a department especially designed for aspiring young secretaries, to be involved in business took on a new trend as instructors geared their classes towards practical everyday applications.

Aside from the basic typing and shorthand courses students became specialized in fundamental skills of record keeping and budgeting, business law, business math, and communications.

Looking to the future **Robyn Ricks**, sophomore, commented that she enrolled in typing because, "It will help when typing term papers in college and if I do any office work later in life."

1. Typing I students use speed and accuracy for timed writings. 2. Shorthand I students read over manuals before beginning assignments. 3. Mr. David Parker reviews students before quiz. 4. Delisa Owens, Connie Dooley, and Jami Love complete Typing II assignment. 5. Debbie Dunlap reads assignment silently while Mrs. Pauline Neblett reads aloud.

Aides Always Quick With Assistance

Taking care of mail, operating machines, greeting visitors, answering the phone, and taking and delivering messages encompassed the duties of those students working in the main office of Sherman High School.

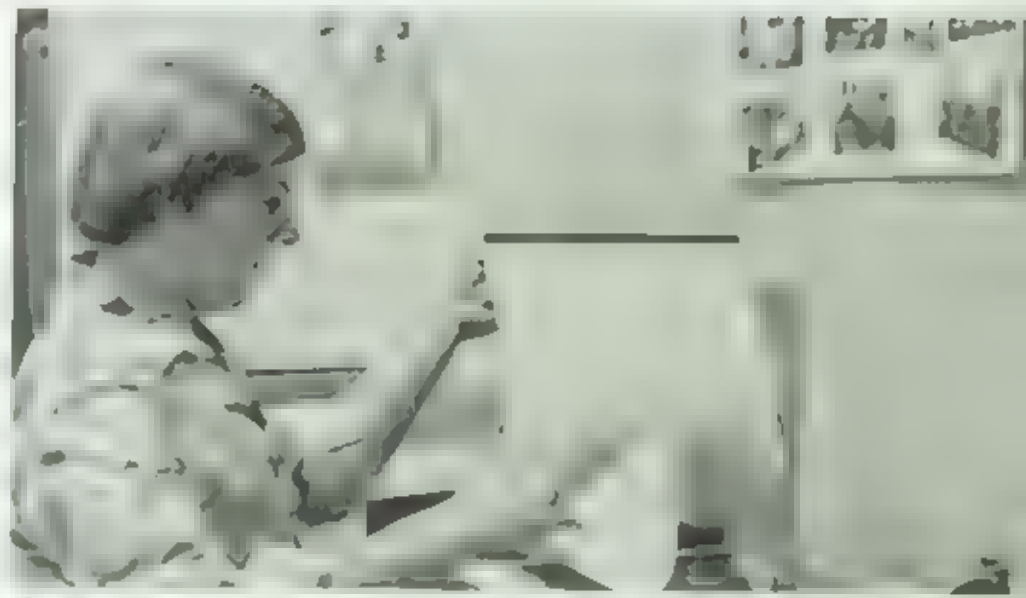

Attendance office aides were kept busy listening to absentee excuses, logging absences and typing each day's "Do Not Admit."

Keeping a running pace, counselor aides helped with organizing schedule changes, delivering yellow slips to students, filing and assisting the school nurse. Working in the counselors' office also helped students learn about the different colleges and their offerings.

Always prepared for an emergency, the media assistants were constantly checking equipment in and out, running machines, repairing broken projectors and tape recorders, and delivering television sets.

Library aides continued to make sure all books were properly checked in and out, books shelved, and the reference files were in order. Aides also wrote out uncounted overdue notices and helped students use the library properly.

"For students that like to read, the library is an excellent place to work because you become familiar with the books and card references," commented senior **Melissa Bailey**.

Woodworking is available to all students. They work on projects such as coffee tables, lamps, chests, cutting boards, drawing tables and stereo cabinets.

Freshmen through seniors are allowed to take mechanical drawing. These students learn how to draw machines and house plans.

Gale Bartley, junior, said, "I took mechanical drawing because I like to draw and I am interested in being an architect. I think it will help me learn more about architectural work."

Kevin Riley, freshman, commented, "I enrolled in drafting because it is a good occupation to go into in the future and because I'm thinking about becoming a draftsman later on."

Medical Field, Demanding Opportunities Vast

The Health Occupation Cooperation Education Program of Sherman High School was specifically for those students that wanted to get started in the health occupations field.

Many students found vast medical opportunities for learning more about their chosen field at Wilson N. Jones Memorial Hospital, Medical Plaza Hospital, dentist's and doctors' offices throughout the city.

Curriculum for health occupation students was demanding and challenging. Besides developing their basic skills in a daily one hour class, students also attended two required classes and

worked half a day as assistants to physical therapists, dentists, X-ray technicians, and as nurses aides.

Seminars and area contests also gave students the opportunities to exchange ideas with professionals and gain more knowledge about their chosen professions.

When interviewed, senior, **Vicki Nobles**, like many other students enrolled in Health Occupations, stated "I like helping and caring for other people and I plan to stay in this field of work after graduation."

1. Kym Sulli, dental assistant for Rudolph Inman D.D.S. at Essin Clinic, prepares Belinda Adams for check up. 2. Janet Jennings, nurses aide in the Newborn Nursery at Wilson Jones, changes diaper. 3. Training for Future Career

Sherman High School's Home Economics Cooperative Education students had as their goal, entrance into full time employment in the home economics occupation for which they were trained.

HECE students spent several hours per school week in on-the-job training and supervision. Jobs for HECE included art and craft ideas, child care aid, clothing and fashion coordination, food service, and florist.

Senior **Kathy Stubbs** best described HECE when she stated, "I enrolled in HECE to learn more about the field I plan to make my future career. All the work is not easy, but it has been challenging." Kathy further commented, "the class taught me how to get along with other people."

Students Aid in Decreasing Housing Demand

Nowadays there is money and great demand in the construction of houses, and building trades gives you a good learning experience in building," stated senior **Steve Rice**.

Helping to meet the demands of a "housing boom" in the local area, Sherman High School Building Trades focused their year on the completion of an estimated \$67,500 building project at 2227 Alpine

The house consisted of 2,300 feet, 3 bedrooms, 2 1/2 baths, game room, formal dining room, den, fireplace and 2 car garage. Students completed a majority of all the carpentry work, plumbing, electrical wiring, and finishing touches under the direction

of **Mr. Eugene Alexander**

In addition to lathe and bench work, students perform odd jobs for people in the community. This gives the students some experience in actual work. "I would like to go to college and study to be a construction engineer," stated Harold Smith, sophomore.

Students Look Behind the Scene

The television productions course at Sherman High School is a three hour vocational course. Tenth, eleventh, and twelfth grade students are eligible to enroll. These students are under the direction of Mr. Tom Welsh.

Students experienced behind the scenes production of television and radio shows by learning how to set up and operate lights, sound equipment, cameras and scenery.

Students Repair Sets for Community

The Radio and T.V. Repair class is a three hour vocational course taught by **Mr. Charles Kennedy**.

Under his instruction, students repaired televisions for members of the community for a mere four dollars plus the price of parts. The cost of radio repairs was two dollars plus the amount spent on new parts.

Since approximately 85 percent of the Radio and T.V. repair students continue working in the electronic field or other similar fields after graduation, this experience is essential in learning basic skills. As a candidate for a future electronic repairman, sophomore **Daniel Robards**, thought Radio and T.V. repair would "benefit as a career and found it interesting."

1. Joe Witherspoon watches as Mr. Charles Kennedy grades his project. 2. Louis Hughley sets high voltage on a T.V. 3. Forood Eriani works on a magnavox T.V. color problem. 4. Radio and T.V. students listen to lecture and view transparency for basic electronic system. 5. Daniel Robards repairs a tape deck while Ken Havins observes.

Livestock Production Increases

"Back in the Saddle Again" was one of the ways to describe Sherman High School's agriculture farm business. However, there wasn't much success in putting saddles on the 30 steers, 40 hogs, or 35 lambs that 90 percent of the agriculture students are raising.

Livestock production at SHS was on the increase this year as more students discovered they, like **Jackie Price**, "enjoy tending to livestock and raising show calves and horses."

While most students seem to be more interested in the Loy Lake Livestock Show held in March, there were some that "enjoyed the leadership activities, the parliamentary procedure, and the grass judging contest that agriculture classes had to offer," stated Junior **Bruce Summers**.

The Agriculture I classes were designed to teach students about livestock, soil, and various fertilizers, while students in Agriculture II took an in-depth look at livestock diseases and plants.

Ag-Co-op gave students the opportunity to put their book knowledge to use as they worked at local businesses and farms throughout the community.

1. Bruce Summers, Debbie Flemming, Melanie Langford, Elwood Reding, Kevin McCleese, Todd Summers, and Kelly Chestnut discuss Parliamentary Procedure. 2. Keith Carlile works on his hog. 3. David Buck and Steve Bledsoe put up fence posts. 4. F H A Sweetheart Alicia Lightfoot feeds her lamb.

Students Learn the "How To's" of Car Repair

Whether one's interests lie in building an engine for speed or just saving money for repairs, Auto Mechanics held a special importance for the thirty-three students enrolled.

Teaching students the "How To's" of everything from changing tires to overhauling engines to accuracy, skill, and pride in one's work was incorporated in the auto mechanics course.

Helping to broaden their knowledge, students spent numerous hours repairing customer's cars for the cost of parts and a small lab fee.

Students enrolled in auto mechanics expressed their mechanic ambitions much the same as —

Sparky Sparazynski, "I took auto mechanics because I can learn a lot about how a car functions, repair my own and the class will provide me with training when I graduate."

1. Joe Loe attempts to change a tire as Robert Cole looks on. 2. John Gudgel, Curtis Klosowsky, and Roger Knitten, begin cleaning parts for an engine overhaul. 3. John Gudgel uses his knowledge on an engine overhaul. 4. Ronald Sporozyrski begins engine tune up as instructor Walter Cole assists.

School, Community, Share Training Responsibility

Industrial Cooperative Training is a joint effort between the school and the community offering students with definite occupational intentions, the opportunity to work and attend classes in the morning.

Although the entire community benefits from the program, the students at Sherman High School gain the most. Not only are students given school credit toward graduation and standard wage earnings for working, but they are given the opportunity to develop their industrial aptitudes and interests. By working students also gain a head start in the competitive field of employment and find out whether they are suited for certain jobs.

Many of the local businesses hiring students through the I.C.T. Program include Ultra Carbon, Johnson and Johnson, Coca-Cola Bottling, Grayson Machine Works and Hale Manufacturing.

"Working in the I.C.T. Program helps you get valuable experience, no P.E. class and a paycheck that sure does help," stated senior, **Kris Miller**.

1. Paul Wsley works on related instruction exercise in industrial cooperative training class. 2. Mike McBride welds stock trailer assemblage at Hale Manufacturing Company. 3. Max Flowers repairs an electric motor at his training station on the job. 4. Chester Perkins completes repair work at the City of Sherman Motor Pool Garage.

Math Keeps Pace With Society

While sophomores ultimately struggled with high school algebra, geometry, and consumer math, upper clasmen attempted calculus, trigonometry, computer programing, or converted Farrah Fawcett's measurements into centimeters.

Realizing the students' needs for living in a modern society, the Sherman High School Math Department covered such topics as balancing check books, filing out income tax forms, surviving without a calculator and using metrics, in an effort to help students better understand how math is directly involved with everyday life.

Sophomore **David Leard** commented, "the math classes have been very beneficial and will be of great value when I study architecture in college."

1. James Shibuya receives individual instructions from Mrs. Ina Morgan in math. 2. Awards Earned Through Long Hours; Continuous Work

Through the contribution of numerous students' musical talents, the Sherman High School Music department opened the year early with summer workshops, rehearsals and daily practice.

After countless hours of continuous work in preparing for concerts, school assemblies, seasonal celebrations, contest, and the musical, the hand orchestra, and Choir were well received by fans at football games and special performances.

According to **Mr. Duane Gohke**, choir director, "the music department is of special value to students because some students can have fun and earn credit. Music helps build creative expression, and a school music program can serve as a public relations device."

Enrolling in a course within the music department

required a special appreciation for music and its fundamentals. Those students wishing to enroll in a specific choir, band, or orchestra had to try out before one of the directors and was placed in the group in which he would perform best.

For the serious student, Music Theory provided an avenue to the study of score reading, harmony, ear training, music history, literature, and musical composition.

Junior, **Sue Matherly** enjoys choir because, "I like to sing and I want to learn to do it right."

Senior, **Jimmy Pfeiffer** stated, "I enjoy singing and competing in contest both individually and collectively and I enjoy all the social activities the choir has, I also enjoy supporting the choir because of the way it supports the school."

The Bearcats lost more than just football games this season. After 8 years with Sherman High School, Tommy Hudspeth resigned as Head Football Coach and Athletic Director.

Maybe the Cats didn't have their most successful season, and maybe they didn't have a lot going for them, but one thing they did have was their true Bearcat Pride. Professional Artists Encompass Leagues Activities

Professional artists demonstrating pencil, water colors, acrylics, and sculpture encompassed many of the Art League activities this past year. In December, the Art League held a Christmas party and during April, members served as hosts for the art exhibit at the Sher-Den Mall. The League also participated in the candy sale, and bought exhibit boards with their proceeds.

Marching Band Changes Style, Sound

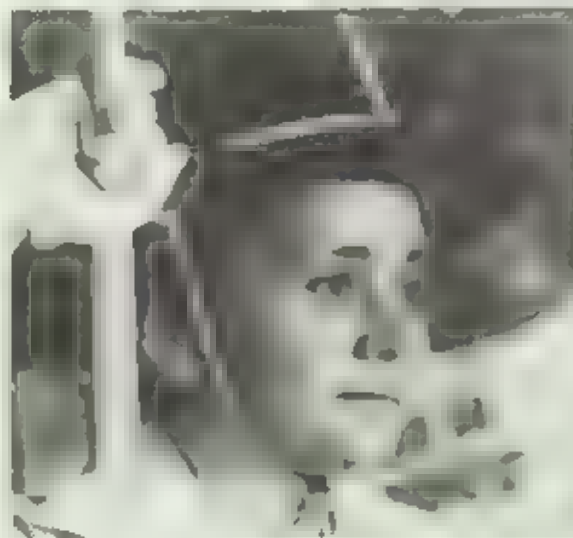

This year the Maroon Marching Machine changed, and in a big way. Their marching style and sound was patterned after drum and bugle corps techniques.

The band also took on a new look, at the expense of approximately \$40,000. Band members performed in one of two sets of maroon and white uniforms with weather conditions being the deciding factor. During warm weather, the band wore a shirt and sash, trousers, black shoes with spats, but no hat. Cold weather called for a more detailed uniform that included a coat, a tall furred hat, and an overlay, along with the trousers and black shoes with spats. The overlay displayed the traditional Bearcat emblem and had Sherman printed on the back.

The 17 year old junior flutist qualified for the All-State Band by placing second in the area try-outs. The second place ranking placed her among the top 10 flute players of the State.

All-State Band met Feb. 7-10 during the Texas Music Educators Association Convention. The band performed at the Tarrant County Convention Center along with the All-State Symphony and the All-State Choir.

Teresa was selected as a member of the All-Region band as a freshman. As a junior, she was selected as a member of the All-Region orchestra. Teresa won a first degree rating during University Interscholastic League solo and ensemble competition as a freshman and a sophomore.

She was also named to the All-Region Choir, Area Choir, is a member of the A Capella since her sophomore year, is a voice student of Mel Derr, and is a member of the "Solid Rock".

The one I love has a heart
of Gold,
He makes things happen for
the young and old
When God made her,
He rid the mold.

The one I love is one who can
laugh
While she is crying,
He can live,
While she is dying

The one I love can look at you
With eyes filled with tears,
And say "I Love You"

The one I love can cheer you up
When her heart is filled with
sorrow
Help you look past today,
And hope for tomorrow.

He shows not her pain
throughout
Her seventeen years,
As she well hides those eyes
filled with tears.

Her First Carnival

We were sitting upon the very
top of the ferris wheel a couple
of weeks back. I glanced over at
her; her little hands were
gripping the bar; her big blue
eyes were lit up with excitement.
She had the biggest smile of
satisfaction on her fat round
face. Her long blond hair was
blowing so beautifully in the
light air. She was yelling with
excitement. She had a look of
amazement on her fair white
face. It was her very first
carnival.

A Friend

A Friend is someone who can help you when you are
feeling low.

A Friend is someone who understands when you say
no.

A Friend is someone who hardly ever gets mad.

A friend is someone who is sad when you are sad.

A friend is someone who compliments you,

A friend is someone who makes you feel blue

When you look at the ocean and see the tide,

You know your friend is there by your side . . .

Remember The Times

Remember the times when we
were young,
And the people we were
always among?
Doesn't it seem so long ago?
We've now forgotten the people
we used
to know,
But times have passed and
we've
gotten old
Our memories now are getting
cold
Remember the times when we
were together
And running around in the
snowy weather
Times are changing and going
fast
It's hard to remember things
from the past.
But those memories are
lingering on
And those last touches aren't
yet gone
Those bells are ringing, can't
you hear the chimes?
Yes, I can remember those
good old times!

Our Little World

The two of us in a world so vast,
We move so slowly,
the world going so fast.
We're happy together,
us two all alone,
We live and laugh in a
world all our own.
I'm living for you as each
day goes by,
always happy,
never needing to cry.
you make our little world
a dream come true,
For when I dream,
I dream of you.
Now the world is spinning
round and round
We've had our ups,
We've had our downs.
But here we are
in our own little world
together,
Having each other
more than ever.

The Cat

As I was walking down the street
One day,
I looked in a window and saw a cat
The cat was coal black with gold eyes,
It had a gentle look on its face
The more I gazed the more the cat
Seemed to change,
Every minute it got meaner looking
Then as I gazed on, it disappeared.

If Only Then I Knew

You told me so
You told me when my day would come
And when it would end
You told me so.
For this I didn't believe so,
For I had much to do and see
For you told me so.
But I had to wait and see for myself
And when it did come,
I remember you told me so.

Those Silly Little Things

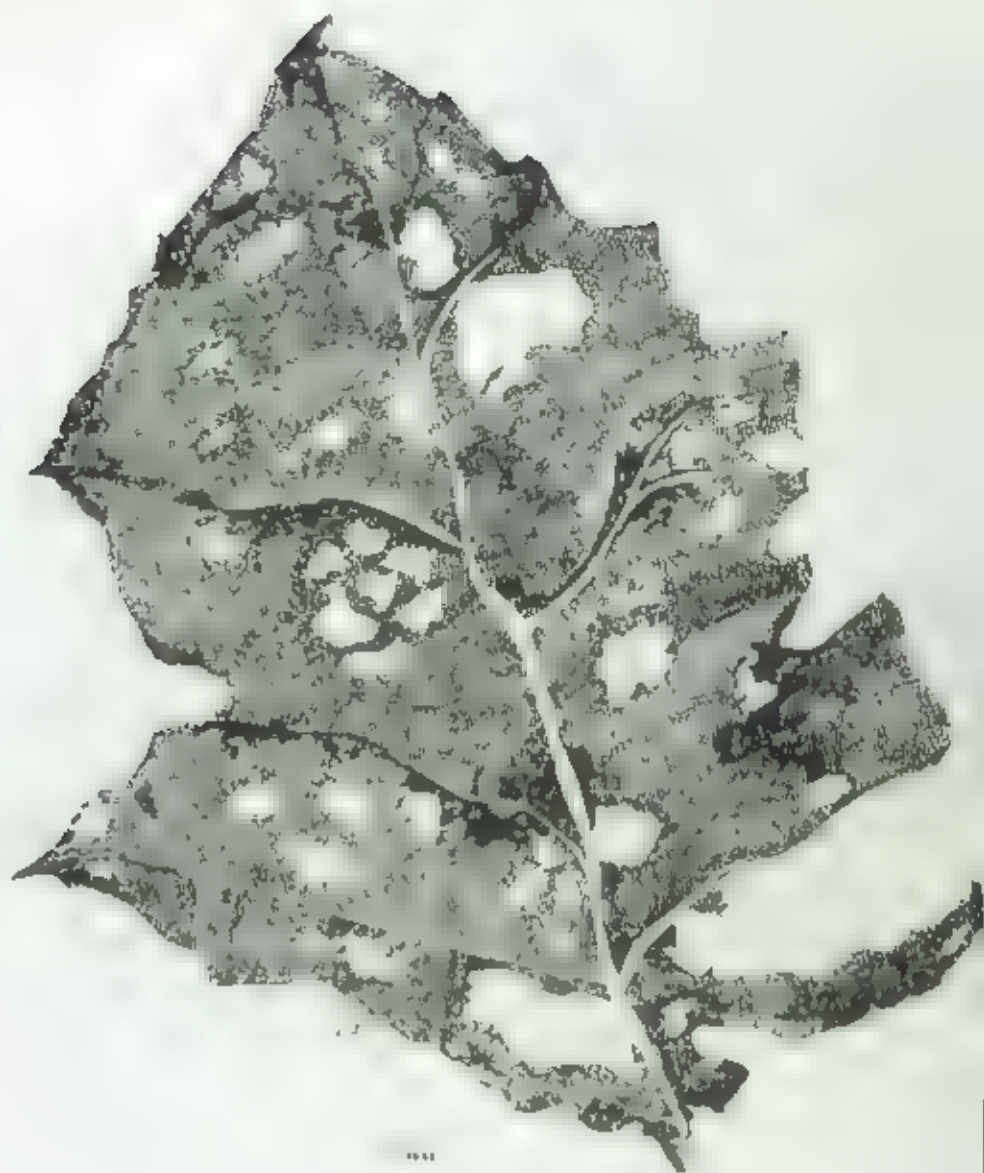

As the ground spins slowly up to
meet me
I suddenly realize what I've done,
I've ruined my life with those silly
little things,
That I thought would be fun.
I was all set for a flight,
Ready and set to go
Somebody said here
Why didn't I say No?
It made me feel so good
I decided to take one more
I finally took so many
I fell to the floor
Now as I lay here
Thinking of what I've done
The guy I love looks down at me,
And says "How could you be so dumb?"
And when he walks away
I think again "How Dumb"
That I've ruined my life
with those silly little things
I thought would be so fun.

Friends

A friend is someone you can trust
 When the going gets rough,
 And you feel that you must,
 Have someone close to whom you can
 reveal your joys and woes.
 A friend is to laugh with and to joke
 To speak the words, That wouldn't be
 spoke
 unless you were really close.
 But most of all a friend is there
 To make you feel needed, and to make
 you aware
 That there is always someone who
 cares.

Love Is

Love is the warmest word in our language
 today, It is a word we use when ever we pray,
 Love is the sound and love is the light, It is a
 word we say with strength, voice, and might.
 Love is my mother and her warming arms,
 That carried me gently and kept me from
 harm.
 Love is my father, trustworthy and strong, Who
 raised me in goodness, and kept me from
 wrong
 Love is the flowers, the grass, and the trees,
 The valleys and meadows, the mountains and
 seas
 Love is the children, the fowl, and the beast,
 And the father who joins them in comforting
 peace.
 Love is our home that sits way on high, With
 bright golden gates with ribbons and ties.
 Love is the beginning and love is the end, Love
 is the point between God and all men.
 Love is Jesus and He is the way, To strengthen
 us wisely day after day.
 And love is the angels who sing High above,
 And shout in rejoicement "God is Love".

The Game

As the people started coming
 I knew there would only be a small crowd
 It was because we had lost
 But yet, I was still proud
 So why not the town?
 As I watched them arrive
 I forgot the crowds, as
 The team ran on
 In their maroon and white
 The impact was strong
 They yelled and clapped,
 The spirit was there
 So why I asked
 Didn't anyone else care?
 They began to warm up
 With smiles on their faces
 It was the beginning again
 Of winning races.
 The gun went off
 The game began
 Now with gritted teeth,
 Down the field they ran
 By the end of the first quarter
 We had skipped behind
 As I looked to the crowd
 They had become unkind
 Back to the game
 And up till the half
 Twenty-four to nothing
 No one could laugh
 The spirit that was there
 Seemed to be gone
 Poor Ricky was sad
 And his face was long
 They ran out to the field
 Fired up as it seemed
 Maybe again
 They had become a team.
 Third quarter was here
 And we started to play
 But the score as it was
 Just wouldn't stay.
 The Eagles didn't score
 But the Bearcats came through
 Now 24-6, we knew what we could do
 Fourth quarter started
 Time was running low
 Then Gary Whitfield got a blow
 The team was fired
 The defense was mad
 They were playing for blood
 And we were glad
 They kept trying for points
 But never passed the goal
 They were pushing too hard
 And got blow after blow
 The Eagles scored again.
 Now 31-6
 They had to do something
 They just couldn't
 Then Richard went in
 With two minutes left
 With a hand off to Rockins
 He broke the net
 He ran down the field
 And into the zone
 He had made a touchdown
 Now we could go home
 As the countdown began
 And I looked at their faces,
 Their pride was hurt
 We had lost the race
 With tears in their eyes
 They stood with despair
 The hurt and the pain
 I could see it all there
 Why Lord, did we lose again
 As I asked in prayer
 There's a reason he said and
 I still care
 So I ran on the field
 To say it was alright

They had played good
 And had put up a good fight
 But the faces were long
 Few words they spoke
 It was one and four
 It wasn't a joke
 But as they ran off
 In their maroon and white
 I was still proud
 Be you, what you might
 There went the team
 That played to the end
 There's no other school
 I'd ever want to defend

My Man

I have a man who is greater than all,
 When I'm having trouble my burdens he hauls.
 Whenever I need him, You can bet he's a ways there,
 He will love me forever, you must understand
 As I lay in bed and take his hand in the night,
 I forget all my sorrows and I feel just right.
 But if I find a second great man,
 And lay in bed and take his hand.
 Honestly my man would not get mad,
 As a matter of fact, he would be glad.
 My man, I know, indeed would not siege us,
 Because my first man's name, you see is Jesus.

Facilities Prepare Students for Future

Most of us will go to college after graduation or will pursue a vocation. The facilities here at S.H.S. can prepare us for either. We use our more traditional academic education as the basis for the concentrated studies we may later assume. The shops, typing rooms, homemaking labs, and other non-academic facilities available for vocational studies, or simply a way to pursue interests in the various fields. Likewise, the art and music department teachers served to lead us in either a hobby or a profession.

We learn responsibility as well as names and dates, logical thinking as well as theorems and properties. Each teacher in their own way brought new experiences of sorts, as well as new information to absorb.

LOF is what we make it.

Don't just think of Libbey-Owens-Ford as a giant Corporation. Think of it as us. We're the thousands of men and women who work here every day

Our LOF paychecks are more than just pieces of paper. They're our groceries, our house payments, our children's educations. They're the hopes we hope and the dreams we plan. What we get for jobs well done

You pull up next to us in rush-hour traffic

We're in line together at the supermarket and the bank. We're people like you. With one difference We have a big part in the products LOF makes

When we say we work at LOF, we mean we do more than put in time here. We

spend a third of our lives here We've made friends and built lives here. We count on our employer for help with health expense protection, retirement and meeting the rising cost of living And we get that help

No wonder we never miss a chance to do our jobs better No wonder we're always looking forward to ways to improve our products

LOF helps make our lives what they are. We make LOF what it is. And we plan to make it even better

Alison Buck, If allowed just one wish that could come true,

It would be for the world to have the beauty I've found in you.

For if the world could love as I do.

The fear of living for nothing would cease to strangle the will.

And the ways of life would be clear to all.

But so few will ever find the beauty

Shared by two and seen only by God that I cry for their hearts.

Never will we realize the true joy of the bright rising sun, or of a clear mountain stream,

Or of the children laughing. CHRIS CHAMBERS

Autographs

The first thing I noticed
 when I stepped out of the car
 was the smell of the sea.
 It was a salty, sweet
 scent that I had never
 experienced before. The
 sun was shining brightly
 on the water, and the
 waves were crashing
 against the shore. I
 felt a sense of freedom
 and adventure. I was
 about to embark on a
 journey that would change
 my life.

 you go through

I have noticed it almost.

I am so glad to hear
 a chance to get to know each

 have grown closer together.
 You are such a good Christian.
 I love you so very much
 and I hope you are
 doing very well. May God bless you.
